ITINERARY

Scala dei Turchi, East

With its white cliffs forming a “natural staircase”, the wonderful Scala dei Turchi is a mandatory stop if you decide to travel along the Sicilian coast by boat. It is said that Saracen pirates landed their ships in these calm, crystalline waters and used the “Staircase” to reach the summit and raid local villages.

Traveling along the coast by boat, you will also have the opportunity to admire the beautiful Torre Salsa, a WWF nature reserve that extends along the entire stretch of coast, where gypsum cliffs alternate with long sandy beaches, and whose name derives from an ancient defense tower located on one of the tips of the cliffs.

You will pass by the beach of Porto Palo di Menfi, awarded the “Blue Flag” by the European Community for its fine sand and pure, crystalline water.

Here, Sicily is discovered without haste.

Welcoming and refined, the Sunseeker Portofino 53 is designed to offer comfortable and seamless navigation. The interior spaces include three guest cabins, two bathrooms, a fully equipped kitchen, and a dedicated wine cellar, while outside, large sunbathing areas at the bow and stern alternate with elegant indoor and outdoor dining areas.
